Foreword

The Office of Institutional Accountability and Research presents the 1998-99 **Salisbury State University Factbook** to the campus community as a support to information-based analysis and decision making. The **Factbook** has been carefully assembled from internal and external sources so that it is accurate and timely, and it appears in an electronic version at <http://holloway.ssu.edu/~instres/>, as well as in the traditional hard copy format. The electronic version features hyperlinks so that users can click on particular pages in the Table of Contents and go to them directly. Additionally, users can quickly print pages they need from the on-line version.

The **Factbook** continues to be organized as in the past, with an introductory section that profiles the University, describes the University's Eastern Shore context and presents a brief history of the University's evolution from a two-year, teacher preparation institution to a comprehensive regional university. The section also presents the Salisbury State University **Mission Statement** and outlines the University's governance structure. Sections on students provide information about enrollment, programs of study and student performance. Additional sections provide information about faculty, staff and administrators and about instructional, financial and facilities support. The concluding section provides information matrices useful for academic program review.

Information in the **Factbook** frequently appears in five- and ten-year trend tables that reveal patterns of growth, change and development in University programs and activities. These tables and information from earlier editions of the **Factbook** provide a key resource for determining, in part, ways the University and its academic departments and administrative units are advancing on the goals of the University's Strategic Plan and mission.

The Office of Institutional Accountability and Research is proud to publish this document annually and believes that it can assist the University community in moving forward to national eminence.

Profile.98

University Environment

Salisbury State University is located in Salisbury, Maryland, centrally located on the Eastern Shore of Maryland. The Eastern Shore of Maryland is that part of the Delmarva Peninsula in Maryland between the Chesapeake Bay on the west and the Atlantic Ocean on the east. The state of Delaware borders the region and a portion of the state of Virginia lies to the south.

First explored by Captain John Smith, the Shore retains much of its historical charm and natural beauty. Because of its miles of shoreline and many rivers, the Eastern Shore has become known for its recreational offerings. Tourism and both recreational and commercial fishing, although diminished in recent years, have been important sources of income. Agriculture has remained an important industry since settlers first landed in the early 1600's. The Atlantic beaches, relatively mild winter temperatures, and relaxed lifestyle attract both summer vacationers and permanent residents. As the population has increased and the economy diversified, more persons have become employed in manufacturing, wholesale and retail trade, and professional services. According to the Maryland Office of Planning the 1995 population of the Eastern Shore, consisting of nine Maryland counties, was 370,050. This figure represents an 24.8% increase from the 1980 census (296,620). The population is projected to increase another 6% by the year 2000 (to 391,900) and another 5% between 2000 and 2005.

Salisbury, which is the cultural and economic hub of the Eastern Shore, is its largest city with a metropolitan population of 60,000. Located at the crossroads of Routes 50 and 13 and along the Wicomico River, Salisbury is the county seat for Wicomico County and a major distribution point for supplies and materials to the rest of the area. Unknown to many, Salisbury is the busiest port in Maryland after Baltimore. Its Salisbury-Wicomico Airport is also the state's busiest after Baltimore-Washington International. Manufacturing and processing industries employ the largest number of residents, but both wholesale and retail firms and service industries are important components of the community's economy.

Salisbury is located 115 miles east of Washington, D.C., 125 miles south of Philadelphia, and 30 miles west of Ocean City, Maryland, which swells to a population of 300,000 during the summer months. The 1990 population of Wicomico County is 79,400, an increase of 23% from 1980. The population is expected to increase another 6% by the year 2000 (to 84,000) and another 5% between 2000 and 2005.

Along with its economic importance, Salisbury offers many social and cultural opportunities. Its newspapers, television and radio stations, movie theaters, stores, businesses and industries, museums, libraries, civic center, cultural programs, houses of worship, public and private schools, and community college and university all contribute to an on-going vitality and significance in the life of the peninsula, and Maryland.

Three institutions of higher education serve the Eastern Shore. Wor-Wic Community College, once a "college without walls," has moved to a spacious new campus on the eastern outskirts of Salisbury. The University of Maryland, Eastern Shore (UMES), is located 12 miles to the south in Princess Anne, Maryland, and is a regional sister institution within the University of Maryland System. Salisbury State and UMES have been working together to expand educational programming opportunities for students.

History of the University

In 1922, the Maryland State Legislature established a commission to determine a location for a two-year normal school on the Eastern Shore of Maryland. A site at Salisbury was selected by the commission and the institution was opened in September, 1925.

The school offered a two-year course for the preparation of elementary school teachers until 1931 when the program was expanded to three years. In 1934, the course of studies was again expanded to four years and in 1935, by action of the Legislature, the University was authorized to grant the bachelor of science degree and to change its name to the State Teachers College at Salisbury.

In 1947, expansion of the teacher preparation program occurred to include the junior high school level. In 1960, the program was expanded to include teacher preparation for the senior high school level and the establishment of a four-year program in the arts and sciences, with majors in several academic fields, leading to the bachelor of arts and the bachelor of science degrees. In 1962, the State Board of Trustees approved a graduate program leading to the master of education degree.

By legislative action, the five state teachers colleges in Maryland became state colleges in 1963, with the word "teachers" deleted from the name, and a new board of trustees was established known as the Board of Trustees of the State Colleges. Under the jurisdiction of this governing board, the major emphasis was placed on the development of the University's undergraduate program, with majors in the arts and sciences as well as professional preparation leading to teacher certification.

Since 1963, the University has expanded rapidly and presently offers 29 undergraduate majors including professional programs in business administration, social work, medical technology, and nursing, in addition to curricula in education and the arts and sciences. In 1971, a program leading to the master of arts degree in history was approved; in 1974, a master of arts degree in psychology was established. Most recently, graduate programs leading to a master's of business administration and a master's in nursing were added in 1982.

Through legislation effective July 1, 1988, Salisbury State along with five other institutions formerly governed by the Board of Trustees of the State Universities and Colleges, became a part of the University of Maryland System. On the same date, the name of the institution was officially changed from Salisbury State College to Salisbury State University, through separate legislative action.

Salisbury State University is the largest higher education institution on the Eastern Shore of Maryland with a fall 1998 enrollment of 5122 F.T.E. (Full-Time Equivalent) students. As an integral part of the public system of higher education in the state, the university is supported, in part, by appropriations authorized by the State Legislature.

The University Mission Statement

MISSION

Salisbury State University's mission is to cultivate and sustain a superior, student-centered learning community where students, faculty and staff are viewed as both teachers and learners, and where a commitment to excellence permeates all aspects of University life. We recruit exceptional and diverse faculty, staff, undergraduate and graduate students and support them as they work together to reach the University's goals. Serving Maryland and the Mid-Atlantic region, we are concerned participants in responding to the educational, economic, cultural and social needs of our community and believe that service is a vital component of civic life. Our highest purpose is to empower our students with the knowledge, skills and core values that contribute to lifelong learning and active citizenship in a democratic society and interdependent world.

VALUES

The core values of Salisbury State University are excellence, student-centeredness, learning, community, civic engagement, and diversity. We believe these values must be lived and experienced as integral to everyday campus life so that students make the connection between what they learn and how they live.

Excellence: Excellence, the standard against which all University activities and outcomes are measured, connotes the perfection and the quality for which we strive and hold ourselves accountable. We accept the notion that the quality of a university depends on the heads and hearts of those in it.

Student-Centeredness: Our students are the primary reason for our existence. Our focus is on their academic and individual success and on their health and well-being. We are committed to helping students learn to make reasoned decisions and to be accountable for the outcomes of the decisions they have made.

Learning: We believe that learning is fundamental to living a life with purpose in an increasingly interrelated world and that our role is to teach students not what to think, but how to think. The University introduces students to a system of ideas about the nature of humanity, the universe, and the world created by art and thought. Through active learning, service learning, international experience and co-curricular activities, students connect research to practice, and theory to action.

Community: Salisbury State University takes pride in being a caring and civil place where individuals accept their obligations to the group, learn through their interactions and relationships with others, where governance is shared, and where the focus is on the common good. We honor the heritage and traditions of the institution which serve as a foundation for future change.

Civic Engagement: The University stands as a part of, rather than apart from, the local and regional community. Recognizing its history and traditions, we seek to improve the quality of life for citizens in the region. We believe it is our responsibility to enrich cultural life, enhance the conduct of public affairs, and contribute to the advancement of the region. We seek to instill in our students a lifelong commitment to civic engagement.

Diversity: Salisbury State University views itself as a just community where there is respect for the value of global, societal, and individual differences and commitment to equal opportunity. Diversity is purposefully cultivated as a way to strengthen and enhance our University community.
